

Post-2015 SRHR Financing Evidence and Advocacy

Karen Hoehn, Erica Belanger, Sibylle Koenig
20 October 2015

Topics

Background:

1. RHSC Innovation Fund projects
2. 2015 Financing for Development (FfD)

Findings:

3. Trends - aid and RH supplies
4. What to say - advocacy messages
5. How to engage - advocacy events & GFF

Background: RHSC Innovation Fund

Two RHSC Innovation Fund grants:

- Independent research (Mar-Apr 2015)
- IPPF National Action for Financing (May - December 2015)

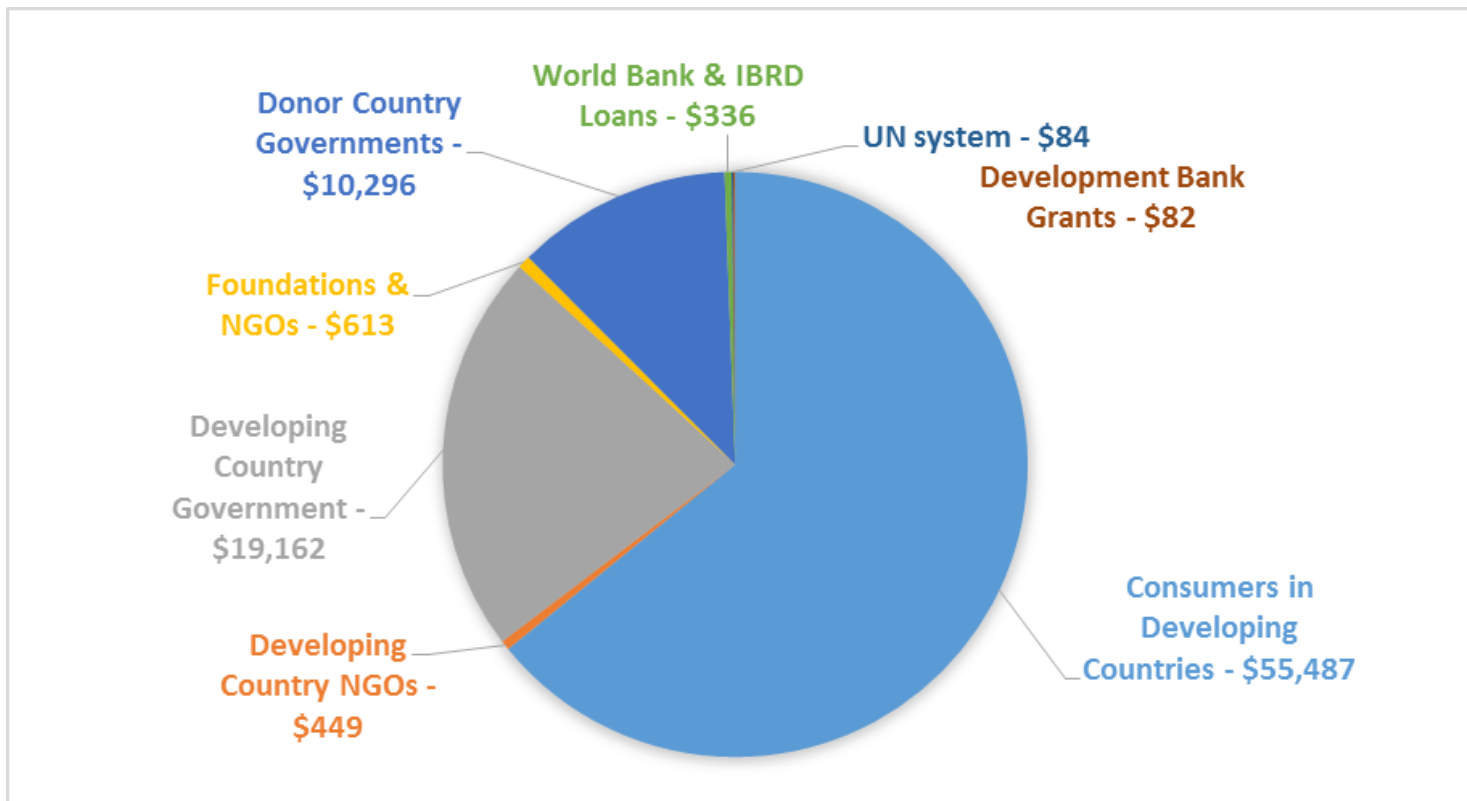

Background: 2015 Financing for Development

- Intergovernmental consultation
- Addis Ababa Action Agenda (AAAA) major topics:
 - Domestic public resources
 - Domestic / international private business / finance
 - International development cooperation
 - International trade
 - Debt
 - Systemic Issues
 - Science, technology, innovation and capacity building
 - Data, monitoring and follow-up

Findings: Baseline - aid and RH supplies

ICPD Costed Package (2012)

Data source: UNFPA/NIDI Resource Flows Project

Findings: Trends - aid and RH supplies

Financing Category	Development overall	RH supplies / FP / ICPD
Domestic public	↑	? ↑ ?
Domestic private	↑	? ↑ ?
International public	↑	↑
International private	↑	? ↑ ?
Blended public-private	↑	? ↑ ?

Findings:

What to say - Advocacy message #1

More Aid Needed

**Governments must create
time-bound implementation schedules
to honour
their financial commitments
and fulfil health rights.**

Findings:

What to say - Advocacy message #2

Transparency required

**Public funds
used to leverage private capital
must require
clear assessment criteria,
independent evaluation
and transparent data access.**

Findings:

What to say - Advocacy message #3

Careful with loans

**Governments must exercise caution
using loans and debt financing.**

**Creditors must provide
consistent, transparent and verifiable
information
about their decision-making,
disbursements and impact.**

Findings:

What to say - Advocacy message #4
ICPD funding essential

**Full funding
of the International Conference
on Population and Development
Programme of Action
is essential
to achieve sustainable development**

Findings:

What to say - Advocacy message #5
SRHR is essential

**SRHR information, services and supplies
are essential.**

**National governments must
include them in social compacts
for guaranteed access.**

Findings:

What to say - Advocacy message #6

Careful with tax Increases

**Increasing government revenue
from taxes and fees
must not hamper SRHR access.**

Findings:

What to say - Advocacy message #7

Women's equality requires RH supplies

**Full access to SRHR
is essential
to promote gender equality
and women's participation
in the labour market.**

Findings:

What to say - Advocacy message #8

Support local CSOs for accountability

Governments

**must fund local civil society
to monitor sub-national
decision-making and impact.**

Findings:

What to say - Advocacy message #9

Better evidence needed

**Governments
must fund research
to assess the impact of
development financing on SRHR
and ensure evidence based
decision-making.**

What to say - Advocacy message #10
People in poverty in MICs need help

**Governments must assess
funding needs
and special challenges
in middle income countries (MICs).**

Findings: How to ENGAGE - Key strategies

Advocacy events / calendar maps:

- Timeline of upcoming events 2015
- Advocacy entry points and opportunities
- Key stakeholders to approach
- Key actions to take.

Findings:

How to ENGAGE - Key post-FfD events

- Global Maternal Newborn Health Conference, 18-21 October 2015, Mexico City
- ICASA - International Conference on AIDs and STIs in Africa, 29 Nov. - 4 Dec 2015, Harare, Zimbabwe
- COP21 -Paris Climate Change Conference, 30 Nov. - 11 Dec, Paris.

Findings: How to Engage - The Global Financing Facility

The GFF for Reproductive, Maternal, Newborn, Child and Adolescent Health (RMNCAH):

- Supports “Every Woman Every Child” aims
- Finances SDG3 “Healthy lives”
- Scale-up in high burden countries could prevent up to 4 million maternal deaths, 107 million child deaths, and 22 million stillbirths.
- Funded by Canada, Japan, Norway, USAID and the BMGF
- Led by the World Bank, the development of the GFF is being led by many stakeholders

Findings: How to Engage - The Global Financing Facility

- GFF country approaches include:
 1. country-level consultation with government
 2. development of a 3-5 year country investment framework
- Four front-runner countries: DRC, Ethiopia, Kenya and Tanzania
- Second tier countries: Bangladesh, Cameroon, India, Liberia, Mozambique, Nigeria, Senegal and Uganda
- IPPF and RHSC working with partners to increase action
- CSOs must engage to ensure:
 - RH inclusion in GFF country investment frameworks
 - CSO participation in GFF accountability and oversight

Findings: How to Engage - The Global Financing Facility

Tips to engage successfully

- Coordinate CSO leadership
- Actively link the national to the global
- Devise and implement a SMART strategy
- Map all the main GFF events
- Ensure you get an invitation
- Work closely with the World Bank country office
- Use evidence-based advocacy
- Build alliances

Findings:

How to Engage - The Global Financing Facility

Key Messages echo those described above:

- GFF does not build a sustainable model for financing RH
- Linking grants to loans can feed indebtedness
- Rights-based approaches to advance SDG3 (“healthy lives”) and SDG5 (“gender equality”)
- Civil society inclusion required for accountability at the global and national level

In summary...

- Development finance is changing
- GFF for RMNCH manifests this change
- RHSC support has produced:
 - Background research
 - Advocacy messages
 - Strategies, tactics to engage
 - Entry points
- Use these to make sure SRHR and RH supplies are financed in the years ahead!
